

Suitable for: Year 11 students who fulfil the Aimhigher criteria

Location: Imperial College London, South Kensington Campus

Dates: Monday 28th June - Friday 2nd July 2010

Places available: 60 residential places available

This course is **fully funded** by HEFCE and Imperial

Deadline for applications: Friday 30th April 2010

A 5-day, 4 night residential summer school intended to raise aspirations and support students to successfully adjust to the topics and different learning styles encountered when studying mathematics A-level compared to mathematics GCSE.

Course aims:

- Provide mathematics investigation within a university environment
- Raise aspirations towards Higher Education and STEM
- Provide uplift from KS4 curriculum content
- Provide a series of activities which contextualise A-level
- Help students to start thinking about Higher Education

Students will:

- Gain a taster of what life is like as a Maths Undergraduate at Imperial College
- Take part in a series of exciting mathematics activities supported by current Maths Undergraduates of Imperial College

How do I get involved?
